Read the Christmas Ads
Good morning. A Merry Christ-
mas to all.
One week more and we will have
to get the habit of writing it 1916.
Six months from now we will all
know who the presidential candidates
are.

BRYAN ANALYZES MESSAGE
W. J. Bryan has this to say about
President Wilson's recent message to
congress:
"I have carefully read the Pres-
ident's message. We are committed to
legislation which will give the Phil-
ippines the promise of ultimate inde-
pendence with steady progress in
that direction. I am sure, too, that
congress will support the President,
in the effort to secure justice for
Porto Rico. Recent events have
strengthened the arguments in favor
of the establishment of a government
controlled by the people, and events
have also increased the demand
for rural credit measures written
in the interest of the farmers.
"But when the President touches
on preparedness and suggests a
scheme of taxation for carrying out
the plan he enters a new field, and
his revolutionary recommendations
will find increasing opposition in both
parties. The reasons that he gives do
not support the appropriations for
which he asks. Pan-Americanism, if it
differs at all from the Monroe Doc-
trine, ought to lessen rather than in-
crease the necessity for preparedness.
If a small army and navy were suf-
ficient to enforce the Monroe Doc-
trine when the Latin-American coun-
tries were suspicious of the United
States, why do we need an increase
now when that suspicion is removed
and when the republics of Central
and South America are willing to co-
operate with us in the support of the
Monroe doctrine? Then, too, the enor-
mous destruction of life in Europe
will reduce the pressure over there
and make it less probable that any
nation in the near future will de-
sire to colonize Latin-America.
"The President is unfortunate, also
in his suggestions in regard to tax-
es. The Democrats will not take
kindly to the idea of taxing gasoline
and automobiles. A few years ago
only the rich owned automobiles; now

HAVE YOU BEEN SICK?
Then you realize the utter weakness
that robs ambition, destroys appetite,
and makes work a burden.
To restore that strength and stamina that
is so essential, nothing has ever equalled
or compared with Scott's Emulsion, be-
cause its strength-sustaining nourish-
ment invigorates the blood to distribute
energy throughout the body while its tonic
value sharpens the appetite and restores
health in a natural, permanent way.
If you are run down, tired, nervous,
overworked or lack strength, get Scott's
Emulsion to-day. It is free from alcohol.
Scott & Bowne, Elmfield, N. Y.

About It

**Assist Your
Stomach**
To Get Rid of the Poisonous
Gases and Fermenting Food.

A good long fast will do this
sometimes. A trip to the moun-
tains. Tramping. Roughing it.
Yes, very good remedies.
But are you going to avail
yourself of either one of these
remedies? No? Then the next
best thing is to try a bottle of
Peruna. Take it according to di-
rections. You will have a natural
appetite. All gas and fermenta-
tion in the stomach will dis-
appear.
Read what Mrs. Emma Bell,
Box 204, Fort Pierce, Florida,
says: "I was taken suddenly
with swelling of the stomach and
bowels, and great distress. Very
painful. Three doctors gave me
no relief. Could not eat any-
thing. Everything soured. I
was starving to death. I began
taking Peruna and was soon
strong enough to do work. After
taking five bottles I can truth-
fully say I am well. I gained
twenty pounds."

they are becoming the farmer's carry-
all, and with the increased use
of gasoline for agricultural purposes, the
farmer would feel that he was being
singled out and made to bear new
burdens for the benefit of munition
factories to get ready for imaginary
wars.
"If an additional income tax is
imposed, to the Democrats will, I
think, insist that the burden be placed
on large incomes and inheritances,
rather than on the incomes of those
who will have to do the fighting
if there is any fighting to be done.
"The President's plan of taxation is
quite sure to arouse opposition among
the Republicans, whose support is
loosened, as well as among the Demo-
crats. The Republicans are not likely
to favor the new income taxes, and
they will probably demand a com-
pensation to their support an increase
in the tariff to which the Democrats
will not consent.
"While the President's plan to
largely increase the appropriation
for the army and navy ought to fail
because there is no necessity for
such increase, its defeat will be made
more certain by the discussions sure
to arise over the different kinds of
taxation.
The foregoing was taken from
the current issue of the Commu-
nist, Bryan's newspaper.

BACK GIVES OUT
Plenty of Pioche Readers Have This
Experience.
You tax the kidneys—overwork
them—
They can't keep up the continual
strain.
The back may give out—it may
ache and pain;
Urinary troubles may set in.
Don't wait longer—take Doan's
Kidney Pills.
Residents of this vicinity endorse
them.
Can Pioche people doubt the follow-
ing evidence?
A. L. Wagoner, barber, Winnemucca
Nev., says: "At times my back was
lame and painful and the simplest
move was distressing. I often got
dizzy and could see specks floating
before me. My health was all run
down and I knew that my kidneys
were at fault. Doan's Kidney Pills
relieved me immediately and since
then, I have been free from kidney
ailments."
Price 50c. at all dealers. Don't
simply ask for a kidney remedy—
get Doan's Kidney Pills—the same
that Mr. Wagoner had. Foster-Mil-
burn Co., Props., Buffalo, N. Y. Advt.

The Stock Gambler's Voice.
As a rule, great manipulators have
high, thin voices and take a distrust-
ful view of securities. Their vocal
peculiarity must be left as an arbi-
trary fact; as to their berish slant of
mind, it is easily accounted for. It
comes of the fact that their services
are more often solicited by men hav-
ing something to sell than by men
wishing to buy—in the ratio of about
five to one. Nevertheless there is no
instance of a bear manipulator's hav-
ing died rich. It is a bull's country.

Lawrence & Co., Chicago.

MINES AND MINING

Reduction of ore in the camp of
Tonopah the past week totaled 9747
tons, valued at \$201,456.
A carload of ore which carries
about 100 ounces in silver to the ton
is being sent out from the Lower
Mammoth mine in Tintic district.
Ore shipments from Park City
mines the past week totaled 1,743
tons, estimated at \$59,000, compared
with 1,642 tons the previous week.
Drilling on leased land near Men-
don, Cache county, will be commenced
as soon as a standard rig can be got-
ten on the ground, says the Logan
(Utah) Republican.

Compared with the previous week's
business, trading on the Salt Lake
mining exchange for the six days of
last week shows an increase of \$22,
000 in round numbers.
The Honerine, near Stockton, Utah,
has a force of men drifting on the
200-foot level to tap the shoots from
which the ore was extracted above
the present tunnel levels.
Ore shipments from the mines of
Tintic last week totaled 134 carloads.
This is estimated at 6,700 tons and
valued at \$170,000. It is compared
with 136 carloads the previous week.
In driving the new adit into the ore
body at the Yankee Consolidated the
ore was found to be eighteen feet
thick, according to the officials. This
adit was sent in in order to mine a
cleaner product.

One of Eureka's oldest properties,
the Bullion Beck, is now sending out
a nice tonnage of high grade zinc ore,
which is coming from various parts of
the mine. This ore is mined under
the leasing system.
Already about 300 tons of ore have
been shipped from the old Maxfield
mine in Big Cottonwood canyon, near
Salt Lake. This ore has been aver-
aging about \$55 a ton and mainly in
silver and lead values.

It is reported from Greybull, Wyom-
ing's latest oil field, that there are at
least ten companies which are either
drilling or ready to work. Greybull
is not a new oil district except in the
matter of aggressive development.
Within the next day or two the first
carload of ore from the Scotia prop-
erty in the West Tintic district since
the mine was turned over to the
Chief Consolidated people will be
started on its way to the smelter.
David Miller, who owns a placer
mining interests in southern Utah,
says that placer mining is reviving.
To emphasize his statement he is
showing a pocketfull of gold nuggets,
some of them as large as a navy bean.

Oil from the shallowest "strike" in
the Big Horn basin fields is being
bailed from a well in the Grass Creek
district only 700 feet deep. The flow
was brought in by Nat Levi and is
about fifty barrels daily, says a Ther-
mopolis dispatch.

Wyoming's coal output for the fiscal
year ended September 30, 1915,
was only 6,268,389.85 tons, a decrease
of 953,382.07 tons from the output of
the preceding year, which was 7,221,
771.92 tons, according to the annual
reports of the state coal mine inspec-
tors.
Some work is being done this win-
ter on the Eberhardt group of claims
in West Mountain, according to a re-
port from Birmingham. The ground cov-
ers five claims and is located near
Butterfield canyon. There is a 350-
foot tunnel and a new shaft is being
sunk.

Provo directors of the Iron Blossom
Mining company held the regular
monthly meeting on December 10 and
declared an extra Christmas dividend
of 3 cents a share. This calls for the
disbursement on December 23 of \$30,
000. This is a total of \$2,500,000 for
the company.
According to one authority, the pro-
duction of the Silver King Coalition
of Park City for the year 1915, on the
basis of the output for the first eleven
months, will be about 1,800,000 ounces
of silver, 27,000,000 pounds of lead,
1,200,000 pounds of copper and 2,400
ounces of gold.

Twelve active leases are now being
operated on the Seven Troughs Min-
ing company's property in Nevada.
The property is being mined to the
700 level and a fair return in royalties
is the result. The company is under-
stood to have something more than
\$20,000 cash in the treasury.
Operations are being carried on at
the Lucky Deposit Mining company's
property in White Pine county at the
old camp of Aurum, Nevada. The
present work consists in running a
crosscut through a prominent vein
which measures 200 feet across and
outcrops through the property show-
ing excellent values.
Announcement of the incorporation
in Maine of the Greybull Refining
company, a \$2,500,000 concern, was
made at the Denver offices of the
Midwest Refining company. The Mid-
west company holds a substantial in-
terest in the new concern, it is said,
and will control the marketing of the
product of the new corporation oil
wells located in Big Horn basin, Wyo.

The Lower Mammoth Mining com-
pany, the property of which is located
in the Tintic district, will pay its de-
clared dividend and start the new
year with \$5,000 in the treasury
and with the mine in better condition
than it has been in years, according
to the local officials.
With the declaration by the Utah
Copper company of \$1.50 a share, it
brings the Utah dividends of 1915 up
to a total of \$9,990,151. To this will
probably be added another \$125,000
by the Cardiff company, \$11,500 by the
Lakeview and possibly some others.
